**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 12-14, drawn to a branched macromer.

Group II, claim(s) 6-8, 15-18, 22 and 32-35, drawn to a graft copolymer.

Group III, claim(s) 9-11, 19-21, 23-31 and 36-44, drawn to polymer blend composition.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I and II or I and III does not share a common technical feature because the feature of the macromer of Group I is no longer exist in the graft polymer of Group II and III.

The graft copolymers of Group II and III, comprise the same graft copolymers as the prior art copolymers, e.g. Markel et al. (US WO 98/34970). As the recited graft copolymer does not make a contribution over the prior art, i.e. the special technical feature(s) is anticipated by or obvious in view of the prior art, unity of invention is lacking and restriction is appropriate.

Art Unit: 1713

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows: (i) different polymer species: propylene polymers and Ethylene polymers and (ii) different catalyst species: metallocene catalyst and Ziegler-Natta catalyst.

1-6-03 Applicant is required, in reply to this action, to elect a single species from 1-8 and a single species from 9-11 to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner: (i) the propylene polymer species is claimed in Claims 3 and 12-14 and the ethylene polymer species is claimed in Claim 4, and (ii) the metallocene catalyst is in Claims 6 and 15 and the Ziegler-Natta catalyst is in Claims 7 and 16.

The following claim(s) are generic: Claims 1 and 2.

Art Unit: 1713

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Pursuant to PCT Rule 13.2 and PCT Administrative Instructions, Annex B, Part 1(f)(I)(B)(2), the species are not art recognized equivalents.

6. A telephone call was made to Mr. Danial Pereira on August 25, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention with the elections of the polymer and catalyst species respectively to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
